Andrash study in Uzhland National University. Now is the time of exam results. Andrash similar to other students, hopes that this scores in the exam could fetch him a scholarship/stipendium for his studies.

There are following simple rules to receive stipendium:

- University follows **5** point grading system. In an exam, a student can receive any score from 2 to 5. 2 is called an F grade, meaning that student has failed that exam.
- Student should not have fail any of the exams.
- Student must obtain a full score in some of his/her exams to show that he/she is excellent in some of the subjects.
- He/She must have a grade point average not less than **4.0**

You are given information regarding the exams and how Andrash performed in those. Can you help him figure out whether he will receive the stipendium or not!!

Input

The first line of input contains a single integer **T** denoting the number of test cases. This will be followed by **T** test cases.

The first line of each test case contains an integer **N** denoting the number of examinations.

The next line of each test case contains **N** space separated integers denoting Andrash's score for each exam.

Output

For each of the **T** test cases, output a single line - "Yes" (without quotes) if Andrash will receive stipendium, or "No" (without quotes) otherwise.

Subtask #1: 20 points

- $1 \leq N \leq 100$
- $2 \leq A[i] \leq 5$

Subtask #2: 20 points

- $1 \leq N \leq 10^5$
- $3 \leq A[i] \leq 5$

Subtask #3: 60 points

- $1 \leq N \leq 10^5$
- $2 \leq A[i] \leq 5$

Example

Input :

```
2
5
3 5 4 4 3
5
3 4 4 4 5
```

Output :

No
Yes

Explanation

Example case 1. Student's average grade point score is 3.8 which makes him/her unqualified for obtaining the stipend.

Example case 2. Student satisfies all the criteria for getting stipend.

CodeChef - A Platform for Aspiring Programmers

CodeChef was created as a platform to help programmers make it big in the world of algorithms, **computer programming** and **programming contests**. At CodeChef we work hard to revive the geek in you by hosting a **programming contest** at the start of the month and another smaller programming challenge in the middle of the month. We also aim to have training sessions and discussions related to **algorithms**, **binary search**, technicalities like **array size** and the likes. Apart from providing a platform for **programming competitions**, CodeChef also has various algorithm tutorials and forum discussions to help those who are new to the world of **computer programming**.

Practice Section - A Place to hone your 'Computer Programming Skills'

Try your hand at one of our many practice problems and submit your solution in a language of your choice. Our **programming contest** judge accepts solutions in over 35+ programming languages. Preparing for coding contests were never this much fun! Receive points, and move up through the CodeChef ranks. Use our practice section to better prepare yourself for the multiple **programming challenges** that take place through-out the month on CodeChef.

Compete - Monthly Programming Contests and Cook-offs

Here is where you can show off your **computer programming skills**. Take part in our 10 day long monthly coding contest and the shorter format Cook-off **coding contest**. Put yourself up for recognition and win great prizes. Our **programming contests** have prizes worth up to INR 20,000 (for Indian Community), \$700 (for Global Community) and lots more CodeChef goodies up for grabs.
